

Emily Fang Xiong Nielsen

Multimedia designer

ABOUT ME

I am a dedicated and creative Multimedia Designer with a degree from KEA and experience in digital design, UX/UI, and web development. I have worked on developing and optimizing websites, as well as on design, content creation, and frontend development using HTML, CSS, and JavaScript.

As a colleague, I am structured, responsible, and quick to learn. I enjoy working both independently and as part of a team and have experience with project management and cross-functional collaboration. During my studies, I worked with methods such as Double Diamond, WBS, Gantt charts, and Trello, and I am accustomed to working in a structured way from idea to final result.

I have a strong interest in visual communication and also express my creativity outside of digital work through painting. This has strengthened my eye for color, composition, and aesthetics.

I value user-friendly design, clear communication, and constructive feedback, and I thrive in iterative design processes.

PERSONAL QUALIFICATIONS

WORK EXPERIENCE

Intern | 2026

Superloppen

Worked independently on various tasks, including updating and organizing the company's website in WordPress. Created digital content and continuously learned new systems and workflows.

Intern | 2025

all.u.me

Worked on the company's Shopify website, SEO, and digital content. Created social media content and independently handled various technical tasks.

Intern | 2019

Imperiet

Worked with graphic design and learned to use Photoshop, Illustrator, and InDesign. Independently developed a book cover and accompanying poster from concept to final product.

EDUCATION

Multimedia designer | 2023–2025

Erhvervsakademi København

My education has given me experience in project work, planning, and collaboration, with a strong focus on structure, deadlines, and organization. I also have strong IT skills and am accustomed to quickly learning new tools and systems.

HF | 2021–2023

Københavns VUC & HF

I studied languages, including German, French, and rhetoric. Through rhetoric, I developed my skills in public speaking and learned to step outside my comfort zone.
